

# Stephanie's Story

Hi. My name is Steph and I'm a QT nursing student, and my dream is to become a Careflight paramedic.

I'm originally from Toowoomba. I was there until I was 11. Then I moved to Childers. I did distance education from grades 1 to 12.

One of my favorite activities would have had to have been the robotics that Mr. Rick did during activity days. They were really awesome and fun.

Youth Leadership camp last year was in Emu Gully, down in the bottom of the range of Toowoomba, and it, basically, teaches us how to become leaders, and still socialise, and have fun.

For a very long time, my life goals were either a doctor or a fashion designer. Those were my two life goals, so sort of glad the health one sort of took over.

I really enjoyed studying how the body works and the different diseases that can affect it, and how we, as nurses, how we will be able to treat those diseases.

My favorite subject this semester would probably be BioScience 2, simple because I was getting 6's and 7's throughout the semester.

One thing I'd say to the DE students is, "Go for it. Go for your goals. Go for your dreams, your passions, and if God's in it, He's going to get you there. He's going to show you what to do. He's going to provide the way for you to get to where He wants you to be. If He has given you this massive passion for something, He's going to get you to that position. You just have to have the trust and the faith that He's going to provide the means."
